Since its conception, HOVIP has been paramount in helping the company with a vibrant business development acumen.

They were instrumental in us becoming a member of the Secure Wales cluster and as a social enterprise we found with the help of HOVIP the transition of local business to allow a social enterprise to be the lead agency within that cluster a very simple and easy process.

Company
No: 4143109

This company was the NESTA Social Enterprise Award winner 2008, which was the HOVIP driven initiative.

We have been very grateful for the input and professionalism of the HOVIP staff which has made our transition into this business world an exciting and rewarding experience.

We have also appreciated the networking events and in particular the Turning Heads Club which are organised by the HOVIP team.

We totally support the concept of the HOVIP initiative and to lose such a valuable tool would have some impact on our future business.

We totally support the HOVIP team in their business philosophies in the regeneration of the Heads of the Valley area.
